P&N Tech Introduces *Encompass*

P&N Tech (www.pntech.net), a division of Postlethwaite & Netterville, Louisiana's leading accounting and business advisory firm, is pleased to introduce *Encompass*. *Encompass* offers an innovative means for businesses to cut costs and maximize efficiency in the current economic climate.

Designed for businesses whose IT needs outweigh their IT budgets, *Encompass* is a service that offers clients the resources of a fully-staffed IT department for less than the typical cost of a single employee. It encompasses everything they need to manage their IT operations, like remote monitoring, inherent data security, data backup, and offsite storage and proactive computer maintenance.

P&N Tech is a resource for businesses seeking implementation and consulting regarding their IT systems. By combining extensive technology and business process knowledge, we can provide a truly innovative approach to your information technology needs. PNT enjoys a track record of more than 20 years of network integration sales and service in the areas of unified communications, server virtualization and storage and advance network design and installation.
